

**Only RM 2,500/-**  
Includes drawer, display, scanner!  
Exclude PC

# SunpacPlus® Point of Sale

for Windows™

“Complete POS with Windows ease of use !”

## Why Buy SunpacPlus® POS ?

SunpacPlus® POS is reasonably priced and comes with cash drawer, barcode scanner & customer pool display

Can also use normal dot matrix printer – save on buying special 40 column receipt printer or barcode printer

Already in-built barcoding functions- can print popular barcode types and read from barcode scanners!

Use of PC rather than standard POS machine for more powerful and customized POS solutions.

If you already have a PC, just install POS software. Save on buying the hardware.

Multicurrency capable!

Multilingual

Programmable keys

Offer discount at line item level or total level

Refund at line item level or total level

Refund or deduct rejected items at line item level

Easy stock lookup / stock search

### Security

Change of price is by password only

Cashier login by password or card

Detects abnormally high sales price or sales value and alerts

All transactions saved as electronic journals. Can reprint anytime

### Improve customer relationship

Tracks purchasing patterns for selected customer

Stores customer birthday dates, anniversary, favourite food, author, etc.

### Wide range of reports

Sales report – daily, weekly, monthly or by any date range

- Collection reports
- Denomination reports
- Cashier reconciliation
- Daily takings

View sales performance in the form of charts

### Continuity

If network down, can continue working on local hard drive rather than the server

### Custom receipt printing

Custom receipt printing allows you to also put custom wordings below your receipt such as lucky draws and announcements.

### Multi-tender

Can receive multiple tenders e.g. cash, cards, vouchers and multiple payment on accunts.

### Also available for multichain branches (web setup)

Able to upload sales data via web to centralized web server for centralized HQ reporting

Can also link to centralized purchasing system (web based – this needs to be purchased separately)

### Accounting modules available

Accounting modules can also optionally be added on to SunpacPlus® POS which include

- General Ledger
- Accounts Receivable
- Inventory (barcode option)
- Purchase Order

This allows you to keep complete financial account of your business.

### Computer Requirements

- Pentium II or higher
- 64MB RAM or higher
- Windows 98™, or higher
